

It is with great pleasure that we look back on our anniversary Forum in Florence Italy. 30 years of Euro-Mat that brought the independent thinking building materials trader together. Over the years, a wealth of information has been shared and the most beautiful alliances have been concluded. Trade driven and success shared.

We have had a total of 470 official meetings with around 120 stakeholders, naturally alongside all informal contacts and discussions that have taken place.

It's great that we symbolically ate and celebrated at the Forum of Florence, the market place and the main square of Florence.

The Euro-Mat team wants to thank you all for your presence and I say until next time and enjoy in the meanwhile!
